We're meeting from 1:00 to 3:00 at BES next Thursday, July 27.

Please review the attached document before the meeting. It attempts to capture the discussions/agreements we've made to date regarding our overall strategy/approach. And in the spirit of prioritizing our efforts, it also proposes a few projects for us to tackle over the next several months.

The objectives for next Thursday are:

- 1) to reach agreement on the sections of the document that describe our strategy and operating assumptions
- 2) to reach agreement and provide additional direction on the priority work tasks
- 3) to decide what we want to accomplish when we meet with the LWG and what we need to do to prepare for it

See you then!
